Dear Ladies and Gentlemen,

You would like to buy/sell a horse and want our clinic to perform the prepurchase exam. We are more than happy to do this for you.

Because of some changes in the law and the insurance companies some changes have been made. You can even choose the extent of this exam, which can increase or decrease the price.

### **The prepurchase exam**

For the prepurchase exam we differentiate the clinical part and the additional options, like X-ray, ultrasound, endoscopy, lab etc...

These methods are used to detect any health problems at the time of the exam. We would like to point out, that some problems are hidden and not detectable, even if the vet takes as much care as possible. By choosing an concentrated exam the risk of hidden problems decreases, but please keep in mind, that a horse is a creature, which can become sick or can change by time passing by.

### **Education by the salesman**

Some informations about the horse, especially incidents in the past, can only be recognized by the vet with the help of the salesman. Missing or wrong information can lead to wrong interpretation of findings.

Because of this we have a questionnaire in our investigation records, which the salesman has to fill out and sign.

### **Expenses of the horse / Liability**

For the prepurchase exam it is necessary to write down the price / value of the horse in the investigation records and to sign it. According to the price and the therefor resultant risk for the equine clinic, the price for the clinical part of prepurchase exam is calculated. Up to the price / value of 5.000 Euros we charge 250 Euros. Above this amount we add 0,60% of the declared price. (exclusive of VAT).

If the applicant stops the exam during the clinical exam, only 250 Euros (exclusive of VAT) will be charged. Any additional exams made at this point will be charged extra.

### **Absorption of the costs**

Whoever (salesman or buyer) is going to pay for the prepurchase exam is a private agreement. But before we start the exam, we have to know who the ordering party is. Only this person can be charged for the upcoming expenses.

**Attendance at the exam**

We recommend, that the ordering party is attendend during the exam. Beside of that we would like to inform you, that the exam can only take place, if all required informations are filled out (who is the odering party? Signature of this person, declaration and affirmation of the price / value, etc.).

If you, as ordering party, are not attendend, please fill out the below-mentioned authorisation and make sure, that the original is in our clinic by the time of the prepurchase exam.

In case of any further questions please do not hesitate to contact our clinic.

With kind regards

*The team of the equine clinic in luesche*

**Authorisation**

I..... (first and last name) award as the ordering party for the prepurchase exam of the horse ..... (gender: ....., age: .....) through the equine clinic in luesche the authorisation to the following person: .....
